

Day: _____

Date: _____

starts:

1. Dalton, Thomson, Rutherford, Chadwick

2.

main courses:

1. He made balls stuck together

2. Dalton's Atomic theory is spheres. Thomson's

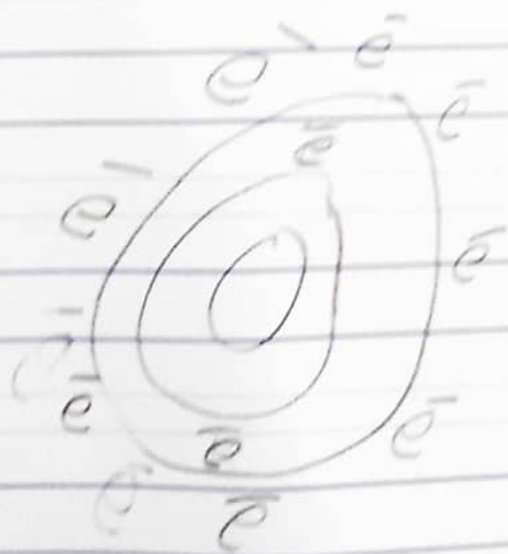

Atomic theory is that these spheres had

positive charge. Rutherford's theory is

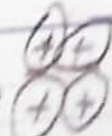

that these spheres had nucleus that

Has inside of it has negative charge
and the positive charge is scattered
outside the nucleus. Chadwick's

Theory :

desert :

dalton \rightarrow  / Thomson \rightarrow  / Rutherford

 / Chadwick \rightarrow
