

- 6- Rotate the spoon to ensure an equal distribution.
- 7- Rinse with distilled water.
- 8- Dry in oven.

② Purifying Metals / Refining copper :-

Extraction of Metals from their ores :-

\* The method of extraction depends on the position of metal in reactivity series.

	K Na Li Ca Mg Al Zn Fe Pb H Cu Ag Au	<p style="text-align: right;">Electrolysis (Molten) graphite.</p> <p style="text-align: right;">reduction by C, CO</p> <p style="text-align: right;">reduction by H<sub>2</sub></p>
