OUR IDEA

01

02

03

04

- A lot of woman need a way of Transportation but they can't afford a car or are too young to own a car you must be thinking why won't they just get a ride on one of those apps will some woman feel uncomfortable or scared to ride in a car with a man alone that's why I created her quick ride , in her quick ride the driver will be a female since its less intimidating for our customers.
