

project

What I did in the project

I wrote everything on the flyer and also wrote and drew the information on the last page and researched everything for the business project I also helped Zain and Zaina with the research on the English and global project and also helped Zain with the PowerPoint.

what Zain did in the project

Zain did the global and English presentation and drew the intro on the business flyer and did the research for the global and English.

what Zaina did in the project

Zaina did most of the research for the global and English and helped us chose the design of the logo.

what I learned?

i learned that Obesity means having an unhealthy amount of body fat, which puts your health in danger. And I also learned that It can lead to other health problems and might eventually lead to death. And also I learned that obesity affects both the person mentally and emotionally.
