

**How to act responsibly and safely when solving computer problems**

# Solving network problems

- You will work with electrical equipment when repairing computer issues. Keeping yourself secure is the top responsibility. consistently abide by the security guidelines when using computers at school, and never attempt to fix network issues at home without first consulting your parents about it.

# When it comes to fixing network issues, safety comes first.

Always follow these safety rules

- ❖ Switch off power points at the wall before connecting or disconnecting a mains electricity cable
- ❖ Do not open the case of your computer or any other device
- ❖ Never use force when connecting or disconnecting a cable or component
- ❖ Make sure all cables are disconnected before attempting to move a device (for example, a printer)
- ❖ Do not lift heavy equipment on your own
- ❖ If in doubt, STOP and ask for help
