## Circular

Dear Parents,

**Subject: Renewal & Enrolment of Student in the King Hussein Cancer Center (KHCC) Cancer Care Programme (Ri'aya) starting with 15JD/year**

As an embodiment of the importance of social solidarity in the treatment and prevention of cancer, we invite you to renew membership/enroll your children in the **King Hussein Cancer Center social solidarity Cancer Care Programme for students (Ri'aya)**. The Cancer Care Programme is a non-profit social solidarity programme which provides its subscribers from all nationalities with coverage for treatment in case of being diagnosed with cancer (**May God Forbid**) directly and exclusively at KHCC (**the first centre of its kind in the Middle East and only the sixth worldwide**) for a symbolic fee starting with **15JD/year/student**. The amount can be paid directly to the school Accounting Office.

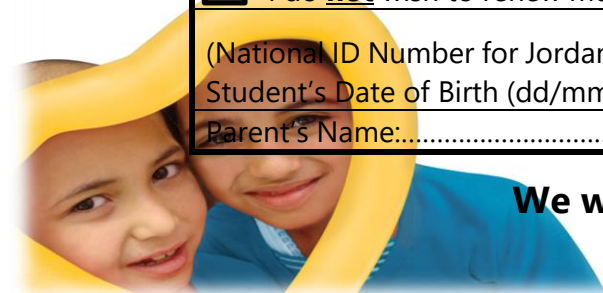

The importance of renewal/enrolment in the programme lies in the fact that it increases awareness about cancer. Moreover, in the case that a subscriber should get cancer, God forbid, he/she will not need to worry about the high cost of treatment or the waiting period for the completion of admission procedures and pre-treatment measures; hence, all the energy can be focused on treatment. Students with cancer can also continue their education through the "Back to School" Programme, which allows students to continue their education during their treatment period.

Students participating in this programme will receive a **Thank You Card from the KHCC Children's Drawings** and an **insurance card for a 1-year period** (from September 1, 2023 till August 31, 2024).

In our endeavor to promote principles of social solidarity among our students and so that no child is deprived of the chance to receive the best treatment just because he/she is not covered, we invite you to renew membership/enroll our beloved students in the programme in order for them to be real partners and friends of the KHCC children in their fight against cancer.

Age Group	Coverage 20,000 JDs	Coverage 30,000 JDs	Coverage 40,000 JDs	Coverage 50,000 JDs
3-20 yrs	15	20	25	30
Student's Name (4 parts): .....				Grade:.....

## Advantages & Benefits of the KHCC Cancer Care Programme (Ri'aya)

- **Advantages in (case of diagnosis):**

1. Guaranteed treatment exclusively at KHCC, given that the Center is not approved by all insurance companies.
2. Priority of treatment at KHCC (no request for treatment is denied for any Programme members).
3. Full coverage of all cancer treatment procedures up to the maximum limit of your choice, regardless of the insurance expiry date. Patients can benefit from the full coverage amount even if diagnosed on the last day before their membership expires.
4. No need for medical forms/approvals for required medical procedures including plastic surgery if recommended by doctors.

- **Benefits in case of non-diagnosed:**

1. 20% discount on x-rays and lab tests at KHCC, even for non-cancer related exams.
2. Free medical exams at the Early Detection Unit – KHCC, for members 18 years old and above.

- **Conditions:**

1. The only condition enrolment in the programme is that the applicant should have no prior history of cancer.
2. We accept people of all nationalities and ages.

- **Waiting Period:**

1. Members can benefit from the converge at the end of the compulsory waiting period (only for the first year of membership): 3 months waiting period.
2. The waiting period does not apply to free annual clinical exams and discounts on medical exams; members can make use of these benefits from day 1 of their membership.
3. There is no waiting period for Students in schools which had enrolled in the previous year.

- **For inquires:**

For more information, inquiries or to enroll other family members in the Programme, please contact KHCC representative (**Mr. Ahmad al-Hawamdeh**) Mobile: 0798218248.

**We wish you all everlasting health.**
