Milk & Dairy Cows
November - December 2023

Date: 23/11/2023

Dear Parents,

During the unit of this month "Milk" the children will research, explore and observe to learn about: Dairy cows/ Milk processing/ Dairy Products/ Benefits of milk /Occupations related to milk/ modern methods of milking cows/ famous countries for chesses and chocolate production. To achieve these objectives, we involve the children in hands-on activities. We work on developing the children's teamwork and discussion skills, and help them think scientifically through observation, description, concept categorization, comparison, and information analysis. Additionally, we utilize technology as a means to enhance these skills and expand learning and exploration opportunities. We provide interactive educational resources that make the learning process more engaging and enjoyable.

English Language

- Letters: ck/e/h/r
- Auditory blending: 3 letter sounds
