## Unit 1

### Page 4

#### B

Science Today

Scientists predict the future of space travel.

Will ordinary people travel into space in the next five years?

No, they won't. Trips today cost thousands of dollars. Ordinary people won't have enough money.

But scientists predict space travel will be cheaper in 20 years. And then space tourism will grow.

How will tourists travel into space?

I think scientists will build new spacecraft. They'll build spaceports,

too. A spaceport is like a station for trains, or a port for ships!

Will tourists stay in space?

Yes, they will. People will build space hotels.

1 My parents will build a house on the Moon.

2 We will go on vacation in space.

3 My brother will have his own spacecraft.

4 I won't stay on Earth.

5 I will fly around the galaxy!

**E**

- 1 How will ... travel
- 2 Will ... drive
- 3 Will ... go

How will tourists travel in space?

They'll travel in space planes.

What about robots? Will robots drive the spacecraft?

Hmm. No, they won't. I think astronauts will drive the spacecraft.

Will tourists go on space trips?

Yes, they will. They'll go on trips to the moon and Mars.

**Page 7****G**

- 1 Will they build a hotel on the Moon?
- 2 Will it have a swimming pool?
- 3 Where will people eat?
- 4 Will people go on moonwalks?

**H**

- 1 will build
- 2 will travel
- 3 won't be
- 4 will use
- 5 won't feel
- 6 'll play
- 7 'll look
- 8 will be

**I**
