

Jolly Old words to love by

When I was just a snow ball, my mother said to me
Be good and kind and thoughtful, and nice as you can be
Always have compassion, and always say what's true
But most of all keep Christmas in your heart the whole year through

My mom said that too, my mom said that too
Especially the part about, Christmas all year through

When I was just a youngster, my mother said to me
Be good and kind and thoughtful, and nice as you can be
Always have compassion, and always say what's true
But most of all keep Christmas, in your heart the whole year through

My mom said that too, my mom said that too
Most of all keep Christmas, in your heart the whole year through
