Subject: English Language

Writing a Compare and Contrast Report

Date: / /

Class: Grade 4 National

(All sections)

Objective: To write a compare and contrast report.

Our Solar System	NN-2 Solar System
<ul style="list-style-type: none"> • Has eight planets. 	<ul style="list-style-type: none"> • Has twelve planets.
<ul style="list-style-type: none"> • Only Earth has living things on them. 	<ul style="list-style-type: none"> • All the planets have living things on them.
<ul style="list-style-type: none"> • The inner planets are smaller and hotter. 	<ul style="list-style-type: none"> • The inner planets are bigger and colder.
<ul style="list-style-type: none"> • Planets orbit the sun. 	<ul style="list-style-type: none"> • Planets orbit a star.
<ul style="list-style-type: none"> • It is part of the Milky Way. 	<ul style="list-style-type: none"> • It is part of the Milky Way.
<ul style="list-style-type: none"> • Planets have different diameters. 	<ul style="list-style-type: none"> • Planets have different diameters.

Write two paragraphs comparing and contrasting between “N-30” and our solar system.

- In the first paragraph, say why the two solar systems are the same.
- In the second paragraph, say why the two planets are different.

NN-2 is similar to our solar system in three ways. First, all the planets travel around a star like our sun. Next, NN-2 is a part of the Milky Way just like our solar system. Finally, all the Planets have different diameters like our planets.

However, the NN-2 solar system is different from our solar system in three ways. To start with, there are twelve planets in NN-2. Also, all the planets on NN-2 have living things. Finally, unlike our solar system all the inner planets in NN-2 are bigger and colder.
