

Smile

Sometimes you feel that life is a race
Sometimes you get a pie in the face
Sometimes you fall on a banana peel
Sometimes the air has leaked from your wheels

It's a good thing we all have a secret
Something we can always use to get through the stormy weather
It's something we can never lose

Smile

Make it all worth while
Make the world a better place for you and every one you care for

Smile

Show the world your Style
Think about some happy things and you can make the world around you smile

Sometimes you feel the life isn't fair
Sometimes you get a bug in your hair
Sometimes you step in water on your socks
Sometimes you catch your brother chicken pox
