

The Primary Stage of Grades (4-5)
2022-2023
Second Semester

Name: _____

Date: / /

Subject: Math

Class: Grade:4CP(C,D,E,F&G)

Extra practice

A) Find the following: Showing your work: (Simplify ÷ then multiply)

1) $\frac{2}{3}$ of 18 =

2) $\frac{5}{7}$ of 49 =

3) $\frac{3}{5}$ of 60 =

4) $\frac{6}{9}$ of 81 =

5) $\frac{5}{7}$ of 280 =

6) $\frac{4}{8}$ of 64 =

7) $\frac{3}{9}$ of 63 =

8) $\frac{7}{9}$ of 45 =

9) $\frac{4}{9}$ of 72 =

10) $\frac{6}{8}$ of 40 =

B) Answer the following.

1) There were 15 children going on a field trip.

A bus can hold $\frac{2}{3}$ of the children.

How many children can the bus hold?

2) Qais entered a 120-word story competition. He wrote his story over 2 days. On the first day he wrote $\frac{4}{6}$ and on the second day he wrote the rest.

a) How many words did he write on the first day?

b) What **fraction** represents the amount he wrote on the second day? How many words is that?
