Write **T** after the true statements and **F** after those that are false. Then write corrected versions of the statements that are false.

- a Anaerobic respiration does not require oxygen. **True**
- b **Aerobic** respiration only provides short bursts of energy. **False**
- c Anaerobic respiration produces lactic acid. **True**
- d Anaerobic respiration releases **the same** percentage of the total energy in glucose as aerobic respiration. **False**
- e **Anaerobic** respiration is the main type used in marathons. **False**

Corrected versions of false statements:

..... b..... Anaerobic.....

..... d..... smaller.....

..... e..... aerobic.....

..... of each statement in the correct part of the
