- B) It's important to have of different countries' custom an awareness.
- C) It's important to have an awareness of different customs countries'.
- D) It's important of different countries' customs to have an awareness.

Question Two: TEXT (A)

Read the following texts carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the texts.

Health conditions in Jordan are among the best in the Middle East. This is largely due to the country's commitment to making healthcare for all a top priority. Advances in education, economic conditions, sanitation, clean water, diet and housing have made our community healthier.

As a result of careful planning, the number of healthcare services has been increasing rapidly over the past years. More than 800 different kinds of healthcare centres have been built as well as 188 dental clinics. In 2012 CE, 98 per cent of Jordanian children were fully immunised. Although there were remote areas of the country where people had been without consistent access to electricity and safe water, almost 99 per cent of the country's population now has access.

Although the country has been focusing mainly on improving its primary healthcare facilities, it has not neglected its advanced medical facilities. The reputation of Jordanian doctors has spread in the region, and now many more patients come to Jordan for open heart surgery. In Jordan, the open heart surgery programme started in 1970 CE in Amman.

The life expectancy figures show that Jordan's healthcare system is successful. In 1965 CE, the average Jordanian's life expectancy was age 50. In 2017 CE, this average life expectancy had risen to 74.6. Additionally, Jordan's infant mortality rates declined more rapidly than anywhere else in the world. The low infant mortality rates, as well as the excellent healthcare system, have been contributing factors to Jordan's healthy population growth, which will result in a strong work force with economic benefits for the whole country.

Question Number One:

1. Two certain factors lead to growing population in Jordan. Write them down.
2. Find a word in the text which means "relating to teeth".
3. What does the underlined word "it" refer to?
4. Quote the sentence which shows the date when the first heart surgery in Jordan began.
5. Several pieces of evidence show that health services in Jordan are increasing rapidly. Write down two of these pieces of evidence.
6. Remote areas in Jordan are suffering from two things. Write down these two things.
7. Several factors enabled Jordan to become a healthier country. Write down three of them.
8. Progress in the medical field in Jordan has become a global, and has a significant economic impact on the Jordanian national economy, in two sentences; write down your point of view.

TEXT :(B)

Studio schools are pioneering schools which receive funding as well as support from private businesses, and which seek to encourage young people to undertake a less conventional form of secondary education. These schools often specialise in one specific area, whilst understanding that the same broad range of skills and qualifications should be made available to all young people.

One such school has recently opened to educate fourteen- to eighteen-year-olds who have a special interest in working in the space industry. Students follow a tailor-made curriculum at the school, including subjects such as Astronomy and Astrophysics. Lessons are a mixture of small-class tutorials, with projects supervised by leading companies in both the space and technology industries.

Prominent scientists and engineers are brought in as guest lecturers, with students aiming to achieve top grades in their Maths and Science exams. When they leave school, they will be well-placed to take any number of different career paths. 'They don't have to become astronauts!' says a spokesperson for the school. 'Excellent grades in science and technology subjects can open many doors and lead to a variety of career opportunities.'

1. Two academic and vocational experts are mentioned in the text. Write them down.
2. Quote the sentence which shows that studio schools are specialised in a particular area.
3. What does the underlined word "They" refer to?
4. Find a word which means "**the study of the chemical structure of the stars**".
5. The writer stresses on the importance of studying two subjects to get a perfect job. Write these two subjects down.
6. Lessons in Studio schools are preformed differently, how?

B) Literature spot (6 points)

Read the following lines from A Green Cornfield carefully, and then answer the questions that follow:

The earth was green, the sky was blue:
I saw and heard one sunny morn
A skylark hang between the two,
A singing speck above the corn;

The colour that symbolises the freshness of nature is..... .
