

Support sheet (4) | The Primary Stage of Grades (4-5) 2022-2023

Name: Key
Date: / 10 / 2023

Subject: Math
Class: Grade 4 (C, D, E, F & G)

Objective/s: Multiplying and dividing whole numbers by 10,100,1000.

Question 1:

Fill in the blanks.

Number	X 10	X 100	X 1000
5,049	50,490	504900	5,049,000
183	1,830	18,300	183,000
9,870	98,700	987,000	987,000
1	10	100	1,000
460	4,600	46,000	460,000
2050	20,500	205,000	2,050,000
860	8,600	86,000	860,000
2112	21,120	211,200	2,112,000
70	700	7,000	70,000

Question 2:

Write true or false in the blanks and correct the mistakes when needed.

a) $4100 \div 10 = 41$

True / False

$4100 \div 10 = 410$

b) When we divide a number by 1000, we move the digits 2 digits to the right.

True / False

we move three digits

c) $580 \times 1000 = 580000$

True / False

d) When we multiply a number by 10, we add one zero to the number.

True / False

we drop a zero to the number
